Frontend Developer

As a professional frontend developer, it's my drive to merge best practices in design with technical expertise, delivering user-centered and scalable web solutions. Proficient in HTML, CSS, JavaScript, and full-stack development with a strong analytical mindset in translating user needs into interactive interfaces that enhance the performance of the website—I do well in environments where teamwork is involved. Always focused on delivering high-quality work, even working in very fast-paced environments. My problem-solving mindset, attention to detail, and dedication to impactful solutions ensure seamless operations and exceptional results.

Key Skills:

- **Responsive Web Design:** Creating user-centered interfaces with optimized performance across devices.
- **Performance Optimization:** Improving website speed, accessibility, and functionality using the latest techniques.
- **Team Collaboration:** Collaborate with cross-functional teams to enable on-time and quality delivery of projects.
- **Problem Solving & Adaptability**: Creative problem-solving to match the dynamic expectations of users and the business.

WORK EXPERIENCE

Machinga DHO • USA • 11/2024 - Present
AI Data Trainer • Contractor

- Enhanced code quality by evaluating AI-generated outputs for efficiency and readability, contributing to an increase in project success within 2 months.
- Streamlined the data annotation process for Generative AI models, leading to a notable increase in model comprehension and functionality.
- Enhanced client understanding by developing human-readable summaries of technical issues, resulting in a 5% improvement in communication clarity.
- Achieved an increase in client satisfaction scores through improved communication strategies and timely responses within a month.

Zaam Technologies • Kenya • 01/2019 – 12/2021
Frontend Developer

- Built dynamic front-end components with HTML, CSS, and React to enhance user engagement by 25% and improve page load times by 15%

SKILLS

Analytical Thinking, Fast Learner, HTML and CSS, JavaScript, Problem Solver, React, Software Development, Tailwindcss, Team member, Typescript

EDUCATION

Advanced Diploma in ICT
Soche Technical College
Blantyre
01/2017 - 09/2017

Diploma in ICT (Systems Support)
Soche Technical College
Blantyre, MW
04/2016 - 08/2016

- Integrated interactive frontend interfaces with a Node.js backend; lowered the data exchange by 40% and improved general application performance by 30%
- Optimized a JavaScript codebase with deep refactoring and testing, leading to 80% lessened loading times and 40% reduced memory usage, increasing user satisfaction scores by 20%
- Achieved a 20% increase in client satisfaction within 6 months by developing comprehensive testing procedures that ensured application integrity and performance.
- Enforced healthy codebases, coding style and standards, facilitating effective collaboration across global teams to achieve project milestones ahead of schedule within 4 months.
- Delivered high-availability solutions for mission-critical applications within 6 months by effectively collaborating with 3 team members, enhancing operational efficiency by 20%.
